## Skills

### Decision making

### Leadership

### Horsemanship

### Ability to work under pressure

### Medical quality standards

### Equine emergency and critical care

## Summary

I am freshly graduated DVM Veterinary degree at University of Pisa, Italy; graduated in February 2020. I am a highly motivated individual, who is keen to pursue a career in equine medicine and Equine surgery. I love working with horses, and have enjoyed learning from the variety of equine placements I've undertaken in the previous years. I have strengthened my learning with additional reading of current developments and research in this field with a special interest in equine orthopaedic.

## Education

- |                                    |                                     |           |
|------------------------------------|-------------------------------------|-----------|
| - University of Pisa               | Doctor of Veterinary Medicine (DVM) | 2012-2020 |

|---|-----------|
| - Second lieutenant: in a recon and patrol unit; discharged from the IDF with honour. | 2000-2006 |
|---|-----------|

## Work experience

2020

- Present

### Self-employee

Equine practice

As a self-employee I diagnose, treat, and medicated animals suffering from disease, injury and infection. I'm Focused on developing community awareness about disease, sanitation, feeding, immunization, and general horse care, both in the context of individual patients as well as community-oriented programs. I'm monitoring care and progress of my patients, through creating treatment and recovery plans, with association and consult of other practicing vet's.

2018

- 2020

### Large animal thesis

Pisa University

Together with the other students who were undergoing the thesis in Medical Equine practice; I was responsible under the supervision of the intern on the medical care of the horses in the hospital and the ambulatory care. Practice includes all aspects of equine health care including surgery, medicine, lameness, anaesthesia and preventative medicine.

2012  
-  
2013

#### **Volunteering in the reproductive dept.**

Pisa university

I was taking part of all aspects of the services offered by the Equine Reproduction dept., including recipient herd management, mare and stallion management, foaling and neonatal care, embryo transfer, herd health management, as well as general health concerns of any horses at the Equine Reproduction dept.

2008  
-  
2012

#### **Technician Veterinary Hospital, Bet Dagan**

Hebrew university, Large animal dept.

I've worked alongside the vets and at the direction of a vet. My role was varied and challenging; duties included - critical care nursing, wound management and bandaging, administering complex medical therapies and drugs and supervising the operating theatres and post-operative recovery procedures, advising clients on postoperative care and demonstrate and advise on drug regimes, as well as general daily husbandry (e.g. hand grazing, walking exercise, stable care, managing discharging wounds or administering drugs).

2007  
-  
2008

#### **Mixed practice Veterinary assistance**

Dr. Ran Margalit (DVM)

I've assisted veterinarians with routine exams and laboratory procedures. Duties included were - Interaction with clients on a professional level, schedule appointments, provide animal care such as feed, water, walk, transport, restrain and groom animals, ensured to stock and supplies and maintained clinical records.

---

#### **Interests**

- **Equestrian** – From young age I ride in various disciplines: dressage, show jumping and cross country.
- **Swimming** – I am a keen swimmer and trying to stay feet in the swimming-pool.
- **Sport** – I love staying active. I go to the gym, and I do calisthenics whenever I can.

---
